Jock McIntyre, Editor

It seems to us with it being necessary to call in the law for the village election that you should investigate our stock of shin guards, baseball masks and sliding pads for there is the near offing a municipal, provincial and federal election coming, be wise and upholsterize.

In used farm equipment we have some good buys, a 10-30 Tractor on Rubber, 10-20 McDrig Tractor and a 20 run double disk drill all rebuilt and in A1 condition.

Confucious say: He who sits on tack is better off.

Wm. Penn and North Star motor oils are "Still the Best."

Horace Gill couldn't have wrote this add:

Let us grind your Sausage while you wait in our large power grinder.

You should see our new wall paper sample book. There are lots of beautiful patterns and many new ideas and suggestions that will prove helpful in your spring house-cleaning.

It seems that the local political machine is still in pretty good working order.

And speaking of house-cleaning don't forget we handle such well known lines as Marshall Wells paints and varnishes, Multiuse enamels, Church's alabastines, Muresco and the brand new Marshall Wells.

Just when we start to wonder what the British Navy is doing we find out just a little about how wide awake that organization really is. "Grand fun" is the way the first man to board the Altmak put it.

Confucious say: He who bets on horse race goes for ride.

A War Time Duty

Winning the war and Canadian Unity is the first absolute supreme object of all good Canadians and to do this we must be very careful to prevent the enemy from grabbing at even a straw misinterpret unity in Canada and our loyalty to the Empire.

As we have pointed out so many times before in these columns, government in Canada whether provincial or Dominion is no easy task. There are so many elements, both racial, religious and political to consider. Each and every government are doing their utmost to carry out a policy which they sincerely believe is in the best interest of the nation.

This being so then our plea is again that during the forthcoming campaign all personalities be forgotten, except those good points which are to be found in every man, and your ballot marked according to the dictates of your inmost soul.

Due to the regulations of the Censor and for other reasons no items will be carried in this paper which would give any indication to the enemy that there is serious internal friction in Canada. Already charges made in Canada have been aired in German. Policies of parties can be so placed before the electors that the people can judge for themselves who are best able to carry on a business like administration.

Work with all your powers to elect your selected candidate but do not say or do anything that will create ill will in the community or give the impression that we are ready to revolt and refuse to give support to the war effort.

Notes

Joan of Arc imagined she heard voices and there are the political candidates these days who say: "Well boys you have talked down my objections."

Airmail Aid To Modern Business

Few persons fully appreciate the transformation in the mail service since the inauguration of mail by airplane but during the past few weeks The Chronicle has had reason to marvel at the accuracy and speed of the air mail service.

Having occasion to consult the proprietor of this paper a letter was mailed in Champion post office at noon on Wednesday and it was received in Waterdown, Ontario, approximately 2200 miles distant at 4 o'clock Thursday afternoon.

Then it must be considered that there is some delay in making connections, for instance the mail left there at noon but was held in Lethbridge for the plane until night. Delay of an hour or so occurs at Toronto and Hamilton before the local train makes connection to Waterdown.

This connection between The Chronicle office and the east is almost a daily occurrence and its unfailing accuracy both in the east to west and return delivery the reason why firms in Calgary Toronto are using more and more the airmail service for cross country business.

The time of year has a great deal to do with our mode of dress, whether we live indoors, our pleasures, sports and even dispositions are affected by the changes of the seasons. But less and less, due to modern processing and transportation methods of our food habits change with seasons. It is possible now with modern quick freezing and rapid transportation facilities to obtain almost the same foods all year round. This is especially true of Canadian fish and the fact for which housewives can be genuinely grateful. Now days we do not have to think of seasons when we realize that most of the 60 varieties of Canadian fish can be purchased fresh or frozen at any time as well as canned, smoked, dried and pickled.
